The Paris "Lanterne" Suppressed.

The Plot to Assassinate Queen Victoria.

Proposed Arbitration on Alabama Claims.

The "Lanterne."

PARIS, August 22.—The proprietors of the *Lanterne*, the editors of which were recently sentenced to pay a fine of 10,000 francs for violation of the press laws, yesterday attempted to resume the publication of that paper. The police, however, were notified, and the entire edition stood and confiscated before it left the office of the printer.

The Assassination Plot.

LONDON, August 22.—A dispatch announcing the attempted assassination of Queen Victoria, in Switzerland, was received through the regular news channel. The foreign office here has received no advice of the affair.

Bokhara.

ST. PETERSBURG, August 22.—The Government is in receipt of later dispatches from Bokhara. The Emir had signified willingness to accept the terms of peace offered by the Czar, with the exception, however, of the duty of building fortifications.

Farragut.

LONDON, August 22.—Dispatches from Constantinople report that Admiral Farragut still remained in that city. Last week he had an interview with Ignatieff, the Russian Embassador to the Sublime Porte, and subsequently the Admiral, in company with General Ignatieff, visited the Turkish Minister, Fuad Pacha and Ali Pacha.

Arbitration Proposed.

PARIS, August 23.—The *Patrie*, in an editorial on American affairs, advises that the dispute between the United States and Great Britain, concerning the Alabama claims, be referred to the arbitration of one of the great powers, as the only method of arriving at a definite and final settlement.

Facts for the Citizens of Fayette and Westmoreland.

Speeches by G. W. Miner, John K. Ewing, Ulysses Hurdick, and Others.

The Republicans of Fayette county held a rousing meeting at Dunbar Station, Saturday afternoon, at which speeches were made by Hon. John Covode, John K. Ewing, Esq., G. W. K. Miner, Esq., Mr. Ulysses Hurdick and Mr. James Johnson.

The train, which arrived from Pittsburgh at noon, brought up the West Newton band, and large delegations from the lower part of Fayette county and from Westmoreland.

The Uniontown delegation, which arrived at one o'clock, filled a special train of eleven cars, and was accompanied by the Uniontown band.

A procession was formed at the depot and marched to the grove, where the speaking took place. Thomas Watt, of Dunbar, was Chief Marshall.

Among the mottoes on the banners in the procession were the following:

"A friend in need is a friend indeed, remember Grant before Richmond."

"Birds of a feather flock together. Behold the Democracy and their rebel allies."

[illegible]

... only went to work to support this Government. And what did the Democrats do? Thousands of them marched to the battle fields to die by the side of Republicans for the life of the nation. Others acted differently, as I will show you before I am through. The struggle went on, and after a bloody war of four long years, the rebels had to submit to the loyal people of this nation. They surrendered; they were whipped. Immediately after the surrender Mr. Lincoln was assassinated. When Mr. Johnson came into office it was believed by the people of the country that he would act with greater severity than Mr. Lincoln had done. I served with him on the War Committee that had just returned from Richmond.

THE COURSE OF PRESIDENT JOHNSON.

I was summoned to his room immediately after he came into office. There were a number of others present, among them old Ben. Wade. Mr. Johnson said he was glad to see us, and the first question he asked us was whether it would be best to proceed with Mr. Lincoln's Cabinet.

Mr. Wade immediately said, "Andy, I want to know what your policy is going to be?" Said he in reply, "Hang them, HANG them, HANG them." We asked him how many he expected to kill. He said at least two hundred, including Jeff. Davis.

[illegible]

... and the very business he sent me down there to look after, he took into his own hands. When I came back to make my report in accordance with his instructions, I found he had gone back on me. [Laughter.] He immediately went to work to frame governments on his own plan. Here is what has caused our troubles—the betrayal of our government by Andrew Johnson. [illegible]

THE NOMINATION OF GENERAL GRANT.

[illegible]

Next Hancock's name was proposed. Every person knows that if Hancock and Hendricks had been nominated for President and Vice President, the Democrats would have had an equal chance with us for success. [illegible]

[illegible]

WHAT THE DEMOCRACY CAN EXPECT OF BLAIR.

The Republican party was badly sold on Andy Johnson. Gentlemen, you are on the same track that we were on when we took Johnson. [illegible]

[illegible]

taken. [Renewed laughter.] But that is not my business.

IMPORTANCE OF THE ELECTION.

We are approaching an important election. The election is to be settled in October, not in November, for as the State goes in October so it will go in November by an increased majority. Always bear in mind that the candidate that gets Pennsylvania gets elected. The struggle is to be settled in October. You lost the election last fall because you did not go to the polls.

THE ELECTION FRAUDS IN THIS STATE.

I told you a little while ago about the fraudulent naturalization papers they made use of. They have not forgotten all they knew.

It has been shown that in this State they used them to defeat us. In one district Col. Robinson contested his seat. He went to work and investigated. The first thing was to prove that fraudulent naturalization papers had been issued and voted. They did it. They sent up, and got men who had seen one hundred Irish come from an adjoining township and vote.

Some think there is danger of their getting in fraudulent votes in this district this fall—in my district. If they do, I would not give much for their seat. I know how to investigate. [Laughter.] I ask none but proper votes, and intend that frauds shall not be committed here. [Applause.]

But with regard to the election frauds. Witnesses were obtained and brought to Harrisburg. Reverend Father Tracy came before the Committee, and testified that he handed over five hundred dollars to Michael O'Mara to leave the State. So he could not be brought before the Committee to testify against the Democratic party. Father Tracy was asked where he obtained the money, and he said he had a conversation with Mr. Wallace the Chairman of the Democratic State Central Committee. Under ordinary circumstances Mr. Wallace would have been imprisoned, but under the present state of things he is made Chairman of that Committee again. O'Mara went to Elmira, but he was followed and brought back and he swore that he got five hundred dollars from Father Tracy. One Irishman who had been in the country only six weeks, went before the Committee and they asked him if he voted. He said: "They gave me a paper and I took it up and put it in. They asked me to do it and I did it." This man, poor John Casey, after giving his testimony, started for home, and, when just in sight of his home, was murdered, and the Pennsylvania Legislature offered a reward for the capture of his murderers. They are probably hid away up among the hills of Mr. Wallace's neighbors, and will probably not be found until after election. The fraudulent naturalization papers were purported to have been issued in Luzerne county. The Committee investigated the record of the Court, and found none had been issued in that county. But the Democracy had learned something since I headed them off. According to the testimony two lawyers came there: they got sister Moore to make some strong coffee, and stained them to make them look older.

THE FINANCIAL QUESTION.

The Democracy have raised a great cry about the gold and greenback question. There is nothing practical in their statements, and never was. The five-twenty bonds were issued to men in such a way that the Government could have the use of the money for twenty years; but there was a provision in the law that the Government could pay them off any time after five years. Hence they were called the five-twenty bonds. The government believed that as soon as the war was over they could borrow money for three or four per cent. When we were in that terrible struggle we agreed to pay six per cent, and only agreed to pay it for five years. If we can get money cheaper we can compel the parties to bring in those bonds and we can purchase them. Every man in the country knows well that before the twenty years are up that we will be able to resume specie payment, and when this is done there will be no difference between greenbacks and gold and silver, and hence no necessity for a distinction. The way to put a stop to the present troubles in financial affairs is to put an end to this senseless clamor about repudiation. Massachusetts gets her money in Europe at four per cent. This government, if there was no clamor about greenbacks, could get money at the same rate. The way to get money at low rates is to keep your credit good. It is with nations as with individuals. If a man wants to get money cheap he must keep his credit above suspicion, and if that was done by our people if there was an end to the howling about greenbacks and gold, and repudiation, our debt could easily be paid. We are paying for this nonsense of the Democratic party a million of dollars in taxes every week. We are paying the interest in gold and the bill provides it is to be paid in gold, and if there was no difficulty about this question we could save fifty millions per year to the tax payer. So it seems we are paying this large sum simply to have the enjoyment of clamoring about our financial affairs.

WHERE TAXES COME FROM IN WESTMORELAND AND FAYETTE COUNTIES.

I heard a great deal of clamor at a meeting in Westmoreland county, the other night, about the system of taxes, and they asked me to speak on the question. I told them it was about time for us to settle that question. Said I, you all know the Republican Legislature has taken every cent of tax off your lands. Well, that is all right. Next after that, the Federal Government has reduced taxes, on an average more than one half the entire taxation of the country. Let us look at this a little further. The industry of the country is relieved from taxation altogether. There is no tax upon your products, (whisky and tobacco are taxed, but not considered as necessary articles). Only incomes over a thousand dollars are taxed. There is not one in ten of this audience pays taxes, and those who are paying are able to pay, so far as the Government and State taxes are concerned. You are oppressed with taxation, so am I. My tax has come to be a rent, but who is it oppresses. It is the county officials of Westmoreland, and none of them are Republicans—not one. [Great laughter.] When we built a court house we increased the tax to seventy thousand dollars a year. The court house was built, and when the tax ought to come back to thirty thousand dollars, they put them up to eighty-five thousand dollars. If I had time I think I could show who stole some of that; you had better look after it.

HOW MUCH AN OFFICE IS WORTH.

A man was put into the Poor House on a salary of five hundred dollars per year, and in three years got so rich that he was able to buy a farm and pay five thousand dollars in money on it. I inquired how this was and learned the farmers around are buying their groceries cheaper at the Poor House than they can buy them at the stores in Greensburg. [Laughter.] I don't know whether this will apply to Fayette county, but I know you built a court house and I understand they have forgotten to put the taxes back. Just look after your own county officers. I think you had better have it "investigated." [Cheers.] If you set me at it I think I can find out something about it. [Laughter.]

PROCEEDINGS OF AN INVESTIGATION COMMITTEE.

I was going up in a sleeping car one night from Baltimore to Harrisburg, and overheard two men talking about how much they would have to pay John Ewing for a contract. I kept my eye on them and found out who they were, and then made a statement on the floor of the House and asked for a committee to investigate the matter, and my request was granted. I sent for the witness and said, hold up your right hand. He said, I swear by the book. He was sworn by the book. He said he had given three thousand dollars. We had a Court there for six weeks, and the conclusion of the whole affair was we saved the Government two hundred millions of dollars. I drew up a bill and came into the House with it; it was put upon its passage and there was not a man in the House bold enough to oppose it.

INDICATIONS OF CORRUPTION.

There was another matter, to show you there are some queer ways of doing things down there. A man named Perry Fuller, who used to be a stage-driver in Kansas, had a contract for furnishing beef to the army in the West. He had men who stole cattle from the Cherokee Indians and drove them just inside our lines, and then he sold the beef to the Government for twenty cents a pound. [Laughter.] This was for a time a paying investment, but after a while one of the agents of the Cherokee Indians came and complained to Mr. Lincoln that they were stealing all their cattle, and Judge Wright was sent out and found the statement was true. It was found that four hundred and ten thousand dollars was coming to Fuller. Mr. Lincoln directed no more money should be paid him until the friendly Cherokees were settled with. Perry had not money enough to buy Senators and he went to the Committee on Indian Affairs; it is the most corrupt committee of the Senate; Ross was a member of the committee. The money was finally paid. Gen. Butler came to me and said he wanted me to investigate. We found Judge Wright and found the money had been paid over. We sent to the Commissioner and asked him if there was any papers on file; he said there were none. That was just before impeachment and money was wanted. Henderson went off in his arrangement with Perry Fuller. Ross and Fuller were continually together. We traced the money as far as we could; we tracked it very near to Ross's pockets. That was the way impeachment was defeated. I refer to this for the purpose of showing you how they do business, and if they could defeat me with a hundred thousand dollars they would do it.

THE RESULTS OF A VICTORY.

The importance of this election is to be found in the fact that on one side you have permanent peace. We have gone through the fierce and terrible struggle of secession; that struggle is over and peace restored to the country. As soon as Grant is elected all the States of the Union will be found in their proper places. The credit of the government will be restored; new bonds will be sold at a[illegible] over four per cent., and taxes will be reduced one third more. As I said before we are paying a million of dollars a week for the satisfaction of clamoring about our own credit; when Grant is elected that is the end of the struggle. A short time ago when there was a faint prospect of Seymour's election, gold went up to forty-five and fifty; when it is seen that the leading men of the country are giving their support to Grant and Colfax, gold is reduced to forty-three and forty five. When Grant is elected we can get money at three and four per cent., and we will pay off our six per cent. bonds. The time for talking about repudiation is at an end.

As the result of this campaign on the one side we have peace and prosperity, on the other side a promised rebellion through which no man can see. I therefore urge upon you the importance of electing Grant and Colfax, and to make sure of that come out at the October election, and secure the success of the ticket. [Prolonged cheers.]

SPEECH OF MR. G. W. K. MINER.

G. W. K. Miner, Esq., was next introduced, and said there were some questions on which our Democratic friends seemed to lay great stress. One was the question of taxation; they were harping upon this through their orators and through the press. But, as Mr. Covode would say, "investigate" the matter and their arguments vanished.

The speaker, by giving the receipts for taxes of the First National Bank of Uniontown, showed that this little bank paid over twenty-two hundred dollars to support the Government—more than some of the large manufacturing establishments paid. The financial question was discussed at considerable length in a practical common sense manner. The excellent speech of Mr. Miner was listened to attentively, and at its close he was loudly cheered.

SPEECH OF MR. EWING.

John K. Ewing was loudly called for, and spoke briefly. He said there was but one issue presented to the people. The motto of Gen. Grant was let us have peace, on the other hand the voice of Blair was still for war. He did not doubt that the American people would perform their duty.

SPEECH OF MR. HURDICK.

Ulysses Hurdick, Esq., candidate for the State Legislature, was next introduced and made a forcible and telling speech, appealing in eloquent terms to his fellow citizens to support the Republican candidates. Mr. Hurdick is a young man of considerable ability and a candidate that the Republicans of Fayette county may well be proud of.

James Johnson, Esq., of Uniontown, then spoke briefly, urging the importance of the election which was near at hand, and the necessity for exertion on the part of the Republican voters at the State election.

After a song by the Glee Club, the meeting adjourned with cheers for Grant and Colfax.

SEVENTY-NINE YEARS OF AGE.

A Gentleman of Seventy-nine Years of Age Entirely Cured of a Troublesome Cough and Throat Disease After Lingering for Forty Years.

For forty years I suffered with a disease of the throat and chest, accompanied by a severe, troublesome cough, day and night. Having tried nearly everything that I could hear tell of and having exhausted the skill of a number of physicians of high repute and ability, I was at last induced to apply to Dr. Aborn, having frequently heard of his high reputation. I placed myself under Dr. Aborn's treatment on the second of May last, and it is with a feeling of deep gratitude that I testify to my entire recovery. Indeed, the Doctor's treatment relieved me before I left his office the first time, the cough then ceased, and has not returned.

JOHN H. CUMMINGS,
West Newton, Pa., August 18th, 1868.

Hon. John Covode, Member of Congress, says:

"For more than a year I suffered from a constant sounding in my left ear. On the 21st of May last I applied for relief to Dr. E. S. Aborn, at 134 Smithfield street, Pittsburgh. He relieved me at once, and from that day to this I have had no difficulty of any kind with my hearing.

"Truly, JOHN COVODE."

EDUCATIONAL.

THE WESTERN UNIVERSITY

OF PENNSYLVANIA.

Every parent and Guardian who has a son or ward to educate should know that we have in our city a Chartered Institution, endowed by the State and the generous friends of learning to the amount of $200,000. Preparatory, Commercial, Scientific and Collegiate in character, with a Faculty ten in number, and a course of study equal to that of our best Colleges. The rooms are large and high, and the apparatus and cabinet of a superior kind. The Observatory belonging to it has one of the finest telescopes in the country, is endowed, is in charge of an astronomer of great ability, and is having four new instruments added to it at an expense of $5,000. All the income from endowment and from tuition is expended in supporting the institution. The aim of the Board of Trustees, who are among our most enterprising and benevolent citizens, is to furnish the best advantages to all our youth equal to those enjoyed in any of our cities. The instruction in all the courses of study is thorough, no temporary expedients being resorted to to secure popularity merely. Only Professors of ability and experience are employed.

Catalogues or information may be had by calling at the University Building, corner of Ross and Diamond streets, between 9½ and 11½ A. M. The next term will commence September 1st.

The Daily Commercial

SPEECH OF SENATOR SHERMAN,

At Hillsboro, Ohio, August 20, 1868.

[illegible]

to promote the honor and welfare of the whole country.

And now, fellow-citizens, I need scarcely, in conclusion, point you to the admirable ticket given us by the Chicago Convention. General Grant was not nominated merely by a party, but because his nomination was demanded by the state of things. His remarkable military career, commencing under discouragement, was pursued with steadiness as inflexible as fate—with confidence as sure as a Christian's hope—and closed with a triumph as complete as that of Washington. [illegible]

Let us rally to the support of this ticket, with the same spirit with which our soldiers followed General Grant during the war, and we will bear our country to triumph and to peace.

Groundless Objections.

Objections are sometimes raised against certain medicines on the ground that they cure so many different diseases. A moment's reflection will expose the shallowness of such an argument, for there is scarcely a medicinal drug of any kind that is not used for more than one disease. The reason why Mishler's Herb Bitters cures so many diseases is because it is the best remedy ever discovered for a deranged stomach, or Dyspepsia, and because it invigorates the entire system, strengthens the nervous fibres, elevates the standard of all the vital forces, and sustains a most healthful tone of the entire human organism. Medicine that will do this, will cure any disease for the simple reason that nature will do the rest. It is a sure protection against disease and if the importance of protective medication were generally understood, no family in the land would risk being without this great Household Remedy for a single day. Sold by all druggists and dealers. Dr. S. B. Hartman & Co., proprietors, Lancaster, Pa.

Physical Exhaustion.

Worn out with the burning heats of summer, the human system requires to be reinforced and regenerated at this season. Strength has literally been steaming out of it under a temperature that necessarily produces exhaustion. Fall is the season of remittent and intermittent fevers, and the weak and enervated are always their first victims. Now, therefore, is the time for invigoration. Those who have neglected to tone and regulate the digestive and secretive organs during the months of June and July, can no longer continue to do so without imminent peril to health and life. Commence a course of HOSTETTER'S BITTERS without delay. Of all renovating, strength sustaining preparations this is the most wholesome and the most potent. It does not unduly excite the most sensitive organization. Its mission is to preserve, regulate and restore. The tonic, anti-bilious and aperient vegetable elements which it contains are associated in the exact proportions necessary to put the whole physique into working order. The purity of all its ingredients is guaranteed. It rouses the languid appetite, gives unwonted energy to the digestion, calms and braces the nerves, and replaces lassitude and depression with energy and cheerfulness; besides being agreeable to the palate and free from all the objections urged against the adulterated stimulants and tonics, of which it is designed to supply the place.

FEMALE HEALTH! FEMALE HEALTH!!

A great majority of the Females in this country suffer from derangements peculiar to the sex. First, and most common among these is, FEMALE WEAKNESS or WHITES, or LEUCORRHOEA, with its constant attendants, Lassitude, PROSTRATION, LAME or WEAK BACK, and GENERAL DEBILITY. No one can be entirely well who thus suffers, and in hundreds of cases health is utterly undermined. Old school medicines and drugs do but little good—often much injury; but HUMPHREY'S SPECIFIC HOMOEOPATHIC FEMALE PILLS are just the thing, relieving promptly and curing permanently. A dollar's worth will do more good than quarts of nostrums, or six month's attendance on a doctor. Six boxes for $1 25. Single boxes, 25c.

FAMILY CASES

Of 35 large vials, morocco case, containing a specific for every ordinary disease a family is subject to, and a book of directions, $10 00

Smaller FAMILY and TRAVELING cases, with 20 to 28 vials, from - - - $5 to 8

These Remedies, by the case or single box, are sent to any part of the country, by Mail or Express, free of charge, on receipt of the price. Address HUMPHREYS' SPECIFIC

Homoeopathic Medicine Company,

SATURDAY EVENING, August 22.

Our local money market continues quiet and unchanged, the demand being only moderately active, and the supply generally sufficient for its accommodation. Rates are held firm at from 9 to 15 per cent.

—In the East money is easy. On approved collaterals there is an abundant supply at four per cent. Among stock brokers balances are loaned from day to day at three, while on railway collaterals, not strictly first-class, as high as five per cent is paid. It is estimated that the shipment of currency this week to the West will amount to between four and five millions. The New York bank statement is very unfavorable, and shows a heavy loss in deposits and legal tenders, the result of an increased demand for money from the interior to move the crops.

—The following statement exhibits the business of the Pittsburgh Clearing House for the week ending Saturday, August 22:

—The Treasury Department now estimates that $3,500,000 of the 7-30s are still outstanding, and that of three enough will never be presented for redemption to more than cover the entire expense of their issue.

—The Government bond market is extremely dull, without any notable feature. At the close of the market to-day, round lots could not be sold at quotations. The bonds, it is said, are beginning to return from Europe, as usual in the latter part of the year, and already $1,000,000 of 1862s have been ordered back and sold at [illegible].

Messrs. Ira B. McVay & Co. report the following quotations of Government bonds in New York to-day, as furnished them by Jay Cooke & Co., their correspondents:

[illegible]

—Gold was firmer, and closed at 144¼.

—The New York railway share market is dull and without change, except New York Central and Erie, which have been irregular. Erie opened at 46¼, advanced to 50¼, fell to 47¼, and closed at 48⅛ to 48¾. Some suppose that the market is steadying for another attack, and that prices may still go lower. It seems to us, however, that they have already touched bottom, and that the prospects of a sudden and persistent advance is flattering. It is hard to tell. Operators will have to "go with the market."

The following table, made up from dispatches received at J. W. Kennedy's Stock Rooms, Apollo Building, No. 80 Fourth street, shows the prices of Railway Stocks, Gold, &c., at the various sessions of the New York Boards during the day:

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, SATURDAY EVENING, August 22, 1868.

The business of the week shows only a little improvement over that of last week. Appearances for an active fall trade are not so hopeful as could be desired. The depression prevailing here seems to be a mere counterpart of the prevailing condition of commerce in almost every part of the world. The receipts of produce continue light, but generally adequate to supply all the demand at present prices. Flour continues from all quotations. The demand for bacon continues good and prices tending upward. Choice butter is scarce and higher. Groceries are quiet and unchanged.

We quote as follows, which are the current wholesale store prices, unless otherwise noted:

APPLES—Market fairly supplied. We note sales of [illegible]

BUTTER—Choice is scarce and held firmly at [illegible] for the best table butter. We note sales of [illegible] at those figures.

EGGS—The market is well supplied and prices are [illegible]

CHEESE—The late advance in New York causes holders to be firm. The receipts here are only moderate and inquiry good. [illegible]

BACON, LARD, ETC.—The market continues active and [illegible]

LARD OIL—Market firm but unchanged at $1 50 for extra No. 1, and $1 20 for No. 2 ⅌ gallon.

SEEDS—We quote flax seed selling at [illegible] bushel, at which figures there is a fair demand. Timothy seed may be quoted at [illegible] with only a moderate inquiry. Clover seed is dull, and nominally at [illegible] ⅌ bushel.

POTATOES—The receipts have fallen off considerably, and with a fair demand prices have been looking up, and the market is firmer, and we quote choice [illegible] ⅌ barrel, and in some cases as high as [illegible] ⅌ barrel. In the Diamond Market choice are sold by the basket at [illegible] ⅌ bushel.

HAY—Sales of 42 loads loose new crop hay, at the city scales, at [illegible] ⅌ ton.

STRAW—Scarce and selling at [illegible] ⅌ ton from country wagons.

SALT—Is dull and unchanged; Allegheny River brands are still quoted at [illegible] to the trade, and [illegible] for small lots in store.

ONIONS—We quote at [illegible] ⅌ barrel.

GRAIN—There is not much doing in grain on account of light receipts, and dealers are not disposed to speculate, until prospects become more settled. We have no sales of consequence reported. Rye is in moderate request at [illegible] for new. Small sales of choice car corn at [illegible] ⅌ bushel, and shelled at [illegible], as to quality. In barley there is nothing doing and prices are nominally [illegible] ⅌ bushel for prime spring. Wheat is in fair request but none offering of any consequence. Dealers say they cannot get wheat at the prices at which the mills obtain it. The mills are fairly supplied with red winter at [illegible] and white at [illegible] ⅌ bushel. The Pearl Mill had, to-day, on the track, 12 cars red winter wheat at an average cost of $2 12 ⅌ bushel at the mills. New oats sell readily from first hands at [illegible], and from store in small lots at [illegible] ⅌ bushel.

FLOUR—The market for flour continues without any change to note. Holders of good brands are firm, as stocks and receipts are light, and they are not inclined to purchase to any extent at current prices, waiting for further developments in regard to the size of the wheat crop. There seems to be an impression that flour will not go as low as was expected some time since. Prices are unchanged, and we quote from store choice spring brands $11; good spring brands $10 50@10 75, and old winter wheat flour $10 75@11 50 ⅌ bbl. There is an active demand for fresh ground mill articles, and we quote the Pearl Mill and City Mill prices as follows: Double extra in barrels $11 50 ⅌ barrel, and in sacks $11 ⅌ barrel; extra family flour in barrels $10 50 ⅌ barrel, and in sacks $10 50 ⅌ barrel.

WEEKLY REVIEW OF THE OIL MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL, MONDAY, August 24, 1868.

The following are the receipts of crude oil for the past week and from the first of January; also, the exports of refined and crude by the Allegheny Valley Railroad and the Pennsylvania Central, together with a comparison table with 1867:

BUSINESS.

The market during the week, at least a portion of the time, was active with some liberal transactions. Prices, however, were lower for both crude and refined. The heaviest decline was in the latter article. The Eastern markets were even more unsettled than our own.

CRUDE RECEIPTS.

There was a moderate increase in the receipts as compared with the previous week. The amount received by river and railroad was 27,098 barrels, against 20,708 barrels for the previous week, being an increase of 6,390 barrels.

The receipts from all points from January 1st to date were 725,444 barrels, against 690,669 barrels for the same time in 1867; being an increase for the present year of 34,775 barrels.

EXPORTS REFINED.

The week's exports by rail were as follows: Pennsylvania Railroad 6,365 bbls. Allegheny Valley Railroad 14,263 bbls. Total 20,628 bbls, against 24,033 bbls for the previous week, showing a falling off amounting to 3,405 bbls.

The Eastern exports from January 1st to date were 408,046 bbls, against 369,248 bbls for the same period in 1867; increase for the present year 38,798 bbls.

SALES.

The week's sales exhibit a large increase as compared with the previous week, as follows: Crude 33,782 bbls; refined 57,000 bbls; total 90,782 bbls, against 48,100 bbls for the week ending August 15, being an increase in sales amounting to 42,682 bbls.

SATURDAY'S TRANSACTIONS.

Refined Oil.—The market was weaker. The sales reported were 8,000 barrels standard white, Philadelphia as follows: 1,000 bbls September; 1,000 do October, 1,000 do November, 1,000 do December, the terms were withheld. Sales of 500 bbls last half October, 32c; 500 do last half September, 32c, being a decline of a half cent on October. Sales of 1,000 bbls August, 31½c; 500 do last half October, 32c. The following sales were made late on Friday evening and not previously reported: 500 bbls September; 500 do October; 500 do November, 32½c, being a half cent above Saturday's figures.

Crude Oil.—The demand was limited and sales were of a similar description. Oil City dispatches say the market is quiet. Holders are asking $5 on broad gauge cars; buyers offer $4 85, and $4 70@4 75 on narrow gauge. In our market we are reported a single sale of 1,000 bbls, seller's option to 20th of September at 13c. The best offer for spot oil was 12¾c.

IRON.

PHILADELPHIA.

The stock of pig metal is very much reduced, and with a good demand holders are firm in their views. The *Commercial List* reports sales of No. 1 Foundry at $33; No. 2 at $31@33, including 100 tons Lehigh Crane X at the latter figure; and grey and white forge at $30@31. Scotch Pig—Is quiet at $37@39 for Gartsherrie. Manufactured Iron—Bars have advanced. The present price for ordinary sizes, is $87 50, net cash. Blooms—Continue dull. Nails—Are stiff and scarce. Sales in large lots to the trade at $5, in smaller lots at $5 25@5 50.

IRONTON, OHIO.

The demand for metal continues quiet. There are some inquiries, but buyers are a little cautious in consummating transactions at quoted rates. Holders, however, says the *Register*, are firm, and hold out against demands for slight concessions. The shipments during the past week have been 700 tons; shipments [illegible]

We quote:

[illegible]

The Lawrence Rolling Mill went into operation last Monday, with the prospect of running regularly for some time. Bar iron meets with a slow demand at $3 [illegible]. The Nail Mill is working extensively on kegs, and beautiful shafting has been put down in the factory. It will be running fully in a few days. Belmont Furnace is again in blast. It promises to do better than before.

Flour and Grain at Milwaukee.

From the circular of Oliver & Hart, of August 21st, we learn that the past week has been free from fluctuations in wheat. Notwithstanding the continued demand from Eastern millers, and our own city millers for wheat to keep them running, prices are five per cent. lower than at this time one week ago. The pressing wants of Eastern buyers have compelled them to send their orders here, in the face of a market declining at all points.

Our stock of wheat having been so light, many of the cargoes that have been shipped were bought, seller three, four and seven days. In several instances vessels had to await the arrivals of trains before they could get their full complement.

The demand continues unabated for shipment, while speculators have been shippers to the extent of two or three cargoes this week. There has been a moderate amount of short sales put out, seller this week, and the sales to-day were principally to fill these contracts.

Receipts are continually increasing, and our former estimates will be more than fully realized. The latter days of this month, in the present favorable weather, will see largely increased receipts, say from 50,000 to 100,000 bush per day. We think the average yield per acre of wheat has been underestimated, as reports from threshing are highly favorable. In nearly every instance a larger yield has been obtained than was at first anticipated, so that the crop promises to yield fully 17 bush to the acre. The quality of our wheat now arriving is really very fine, of bright amber color, soft, clean, plump, and in every respect better than any crop harvested for years in the States tributary to this market.

Our inspection reports for the week show 141 cars No. 1, 142 cars No. 2, 9 cars No. 3, 3 cars rejected. It will be observed that nearly half inspects choice No. 1.

The wheat market is not so firm this morning, the demand being chiefly to free "shorts" due this week. No. 1 sold at $1 85½, spot, $1 85 regular, $1 80 seller August, $1 75 seller to 15th September. No. 2 [illegible] $1 72 for cash, and $1 65 sellers' option to 15th September. [illegible] nominal.

Lake freights on grain have advanced 3c for wheat the past week, closing not so firm; 8c for wheat to Buffalo; 13c to Oswego. Propeller freights about 3c higher than these rates.

Oats are only in moderate supply; farmers seem more disposed to market their wheat, so that our stock of oats is extremely light. We quote them dull at 50c. Rye dull at $1 38.

Flour rules very dull and tends downward. Flour from old wheat grinding in very light supply. The new wheat flours that have made their appearance are very choice, and superior to any made for years. We quote cities $9 25@9 75 for new; choice countries (new) such as "amber Iowa," "Lion," "Forget Me Not," &c., $9@9 75; "King of the West," "Empire," (Hustisford) about $8 75@9 00; "Golden Gate," "Dodge Co." $8 50. Flour freights firm and unchanged. Receipts of wheat this week, 98,934 bush. Shipments, 80,819 bush. Stock in store to-day, 60,000 bush.

Provisions at Cincinnati.

The general features of the provision market, according to the circular of George W. Phillips, Jr., of the 21st inst., remain about as noted one week ago. There has been no animation in the trade, the market being devoid of speculation, and the consumptive demand was only moderate. Holders, however, appear careless about selling, and though the market has ruled quiet, prices were well maintained, and in some cases rates are a shade better than at the date of my last.

Mess pork has ruled quiet during the week. Sales were made as low as $28 50, but at the close there are buyers at $28 75 without sellers under $29 for city packed. No country offering.

Lard has been neglected all the week, though they are still contending for 18½c. No buyers over 18½c, and not many at that. Keg lard 20¼c. Stearine scarce; prime 19c.

Grease—Stock light; price nominal.

Bulk meats have been in fair demand all the week, Baltimore and the smokers buying quite freely. Sales of shoulders at 12½c, which is ½@¼c more asked. Rib sides, clear rib and clear quiet at 14½, 15@15¼c, all loose.

Bacon remains quiet, the demand being purely consumptive. I quote shoulders 13½@13¾c, the latter generally asked. Rib sides—but few to be had at 16c. Clear rib held at 16½@16¾c. Clear 17@17¼c. Hams quiet. Sugar cured 21@22c. Second pickle 18½@19c. Plain 17½@18c, all canvassed and packed. Plate beef firm at $18 50@19 50.

Dried beef scarce. No winter cure here, to come out next week 18½@19c.

New York Dry Goods Market.

NEW YORK, August 22.—The dry goods trade is more active. The only change to-day is the offering of a good line of prints at one shilling per yard at which price they sold freely. The Graniteville mills are offering a first class article of brown sheetings at 16c, but best Eastern makes are worth 17c, and two or three brands are held at 17½c. Very good sheetings like Stark A and Lyman C, are selling as low as 16@16½c. In bleached muslins there is very little change, prices generally being steady at 28c for Masville and New York mills; 25c for Wamsutta and Utica Nonpareil; 22½c for Tuscarora and Arkwright Water Twist; 18½c for Lonsdale; 18c for Hill's Semper Idem and Forestdale; 17c for Langley, and 22½c for Red Bank. Black Rock linseys now bring 22½c.

Louisville Market.

LOUISVILLE, August 22.—Sales 61 hhds tobacco; lugs to medium leaf $7 25@14 00. Flour—super $6 75@7 00, fancy $11 50@12 00. Wheat $2 05@2 10. Corn 95@96c. Oats 60c. Rye $1 25@1 30. Mess pork $28. Lard 18¼c. Bacon shoulders 13½@13¾c, clear ribbed 16¾c, clear sides 17¼c; bulk shoulders 12¼c; clear sides 16¾c. Whisky—free raw $1 25 @1 30.

NEW YORK, August 22—P. M.

MONEY

The week closes upon a very easy money market at 3@5 per cent. for call loans, and 7 for prime discounts. The general trade of the city is improving and the fall business will soon open in earnest, which will increase the legitimate demand for money in the immediate future, which, in connection with the continued shipments of currency to the West, must soon have a hardening on the rates of interest.

THE BANK STATEMENT

is very unfavorable, and shows a heavy loss in deposits and legal tenders, the result of the increased demand for money from the interior to move the crops. The loss in specie is owing chiefly to the demand for customs, and the decrease in loans shows a gradual contraction on the part of the banks. This contraction in loans and decrease in deposits and legal tenders is likely to continue until October, when the quarterly bank statement is made up.

Loans	$275,245,781	Dec	$2,562,837
Specie	19,668,781	Dec	3,185,160
Circulation	34,137,627	Dec	23,541
Deposits	216,455,403	Dec	7,125,682
Legal Tenders	69,787,645	Dec	3,177,836

STERLING.

The foreign exchange market is quiet and firm. Some leading bankers are asking 109¾, but the market can't be quoted over 109 for prime sterling and 109¼ for bond sterling.

GOLD

Was firmer at the close, owing to the loss of specie by the banks, and advanced to 144¼. Loans were made at 3@2 per cent. for carrying, and flat for borrowing.

GOVERNMENTS

Dull and heavy at the close, and round lots could not be sold at quotations. Bonds are beginning to return from Europe, as usual in the latter part of the year, and already $1,000,000 of 1862s have been ordered back, which have been sold here at 113@113⅛, seller 30. The investment demand is very little, and orders from the interior are chiefly to sell. Coupons '81; 115¾@115⅞; do '62 113¼@113⅝; do '64, 108⅜@109; do '65, 111⅜@111½; do new, 107⅞@107⅞; do '67, 107⅞ @108; do '68, 107¾@107⅞; 10 40s, 108⅝@109¾.

BORDER STATE BONDS

Quiet and steady. Old Tennessees 64@65; new do 64½@65; old North Carolinas 71@72; old Virginia 56; new do 52½@54.

STOCKS.

The railway market was dull, except Erie, which has been active and variable. It opened at 46¼, advanced to 50¼, fell to 47¼, and closed at 48⅛@48¼. A large short interest was covered to-day. New York Central was heavy, and sold as low as 123¼, and rallied to 124¼. The general list is dull, and without much change. The sharp turn in Erie is said to have been engineered by two prominent operators, who took advantage of the stock being oversold and forced up prices above their previous covering. Express shares opened higher, with an active borrowing demand, but closed lower. Miscellaneous list dull.

RIVER NEWS.

NAVIGATION remains suspended to the lower ports. On the slack water trade continues brisk. Both lines are doing a good business.

THE improvement on the Monongahela wharf above the suspension bridge, is being hurried with all possible dispatch. The contractor, Flynn, is evidently the right man in the right place.

THE colored man named Ray, one of the witnesses in the Donaldson murder case who forfeited his bail at St. Louis, has been arrested at Saratoga and will be taken to St. Louis.

IMPORTANT CASE.—The Cincinnati *Gazette* says: Charles B. Lewis, editor of a newspaper published somewhere in Michigan, has commenced a suit in the Court of Common Pleas of this county, against the owners of the Magnolia, for injuries sustained by the explosion of that steamer, on which he was a passenger at the time. He says he has been crippled for life, and has suffered much disfigurement besides. He estimates his damages at $30,000.

GET A GOOD SAW,

And Your Mill will do Good Work

Our Saws are Oil Tempered, Patent Ground, made to Run well.

You will find each Saw of one temper, no hard and soft spots in the same saw.

We accomplish this by our Patent Tempering Process, and you can not get this from any other saw maker, as we own the patents for the United States.

We do not claim to make a cheaper Saw than any one else, but one that will run at the word go, and will give no trouble, and will keep round longer; because being uniform with temper, it will not wear on the cutting edge any faster than the other.

We invite correspondence, or an interview with the practical man of your firm.
